

JOIN THE TEAM FOR CLEANER AIR

What is the Alamo Clean Air Partnership (ACAP)?

ACAP participants set a goal to reduce their company's emissions by 10% within three years. The program offers several strategies to achieve emissions reductions. A few strategies are listed below:

- Carpooling program
- Fleet and other vehicle emissions reduction
- Energy Conservation through building energy consumption
- Use of clean energy

4 Reasons to participate in ACAP program:

- Community recognition through advertisements, events, publications, and awards program
- Increased company and employee productivity
- Tax savings through the federal TEA-21 and utility bill reductions through energy conservation programs
- Improved company image and pride by making the air we breathe healthier
